

Electronic Reward Management System

To achieve a balanced development and growth of the students morally, academically, physically, socially and aesthetically, our reward management system is helpful in addition to professional teachers and a harmonious and appropriate school atmosphere. Our reward management system allows school to customize scoring criteria, project and group classification, permissions, etc. And the performance of students can be recorded and analyzed easily and accurately.

Easily import large amounts of data or modify data in batch

Can use Excel to import a large amount of data into the system, such as student data, parent data, teacher data, and reward plan data. And the batch data change function allows administrators to change thousands of item's records in less than 10 seconds, for example, modify the records of Class 2A students in one go.

Use mobile App to add points and prize

Teachers or parents can add points to students or approve the redemption of prizes through mobile App: can choose to scan student's QR code or search by class, student number, name, or barcode in the App. There is also a function of giving points in batch, for example, giving points to Class 2A.

Features of the reward management system:

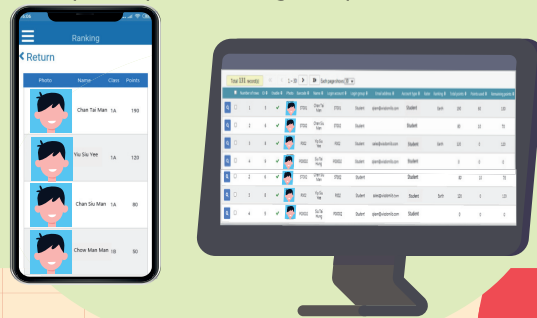

Customization of scoring criteria, project and group

Schools can set up incentive plans as needed. For example, "Extracurricular Activity Group" creates a scoring criterion called "Positivity" for a project called "Participate in Interest Class and Uniform Team". When students get the required scores, they can get rewards.

Number of rows	Subject	Criteria name	Group	Rate	Scoring start date	Scoring end date	Highest point limit	Scoring times limit	Scoring unit	Scoring unit per times	
1	CH001	Diligent	Pass in Exam	Chinese	Teacher	2022-07-21	2022-08-30	80	3	10	30
2	CH002	Diligent	Pass in Test	Chinese	Teacher	2022-07-21	2022-08-30	80	9	10	10
3	CH003	Diligent	Finish all assignments	Chinese	Teacher	2022-07-21	2022-08-30	100	10	10	10
4	CH004	Diligent	Finish all online exercises	Chinese	Teacher	2022-07-21	2022-08-30	100	10	10	10
5	COM001	Diligent	Get above 70 marks in Exam	English	Teacher	2022-07-21	2022-08-30	80	3	10	30

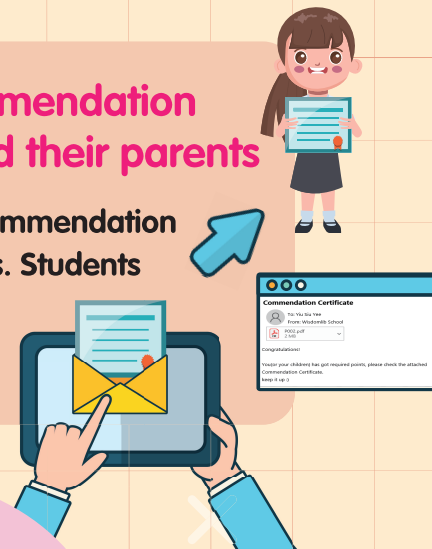

Student points query and report

Teachers can check students points in the system and mobile App. Parents or students can check their points in mobile App. Teachers can also export reports from the system, such as scoring record report, point usage report, reward report, etc.

Automatically send notifications and commendation certificates to those qualified students and their parents

The system can automatically send notifications and commendation certificates to those qualified students and their parents. Students would be encouraged after receiving the certificates.

Customization of scoring rules and permission

Schools can set up incentive plans as needed. For example, "Extracurricular Activity Group" creates a scoring criterion called "Positivity" for a project called "Participate in Interest Class and Uniform Team". When students get the required scores, they can get rewards.

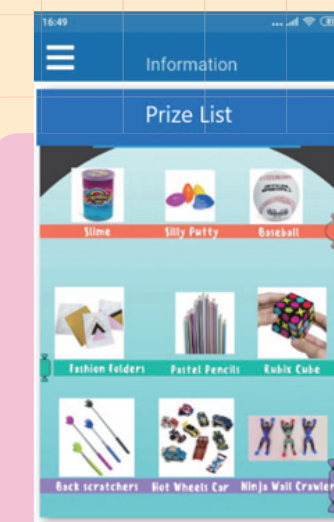

+100分

Highest point limit	100
Maximum points student can get	
Scoring times limit	10
Maximum times student can be scored	
Scoring unit	10
Points that will be added for each scoring	
Scoring unit per times	10
Maximum points can be added each times	

Sharing prize information

Teachers can share prize information through the system, and students or their parents can view the information in the mobile app. After students get the required points, they can apply for prizes.

There are many other functions we cannot list here. For more information, please feel free to contact us.
